**rick.dion@primeplumbingmd.com**

Emergency Plumbing and Underground Utility services including residential and commercial water heaters, underground water mains, emergency sewer drain cleaning and hydro jetting, gas leak and repair, and backflow device certification.

### **Pure Water Technology**

**Alison Bucklin**  
**(443) 570-2539**  
**abucklin@purewaterpa.com**

Pure Water Technology® provides fresh, pure, safe, and healthy drinking water and ice by removing chemicals, bacteria, and parasites. We replace a bottled water cooler, filter cooler, or water fountain and eliminate cross contamination from multiple fingers touching the dispenser. These purification systems, along with our reverse osmosis membrane and activated oxygen injection, produce better tasting, healthier water than other workplace systems. Bottled water, filter coolers, and water fountains are not the same! In addition, many of our customers have saved time, money, & the planet over their existing water dispensing systems, by switching to Pure Water Technology.

### **Red Hawk/ADT Commercial**

**Alan Llanes**  
**(202) 604-1455**  
**alan.llanes@redhawkus.com**

We provide Life Safety & Electronic Security for commercial properties in all vertical markets. ### **Unlimited Restoration, Inc.**

**Rene Carter**

**(443) 610-2200**

**rcarter@urinow.com**

URI's sanitizing and infection prevention services were developed in accordance with current CDC and EPA guidelines for COVID-19 infection control. URI's products have been cross referenced with EPA's "List N" of approved chemicals to ensure efficacy for disinfection of COVID-19. Level 1 - COVID-19 General Preventative Sanitizing • Cleaning and sanitizing per CDC protocols using EPA registered sanitizers approved for addressing COVID-19 • HEPA Vacuum and pre-cleaning of general area • Clean and sanitize all high touch surfaces • Clean and sanitize accessible traffic areas of floors including carpeting. Level 2 - Disinfection for Known Exposure to COVID-19 protocols are developed per incident depending on the details of the incident, facility and resident population. Level 2 service includes all of the steps of the Level 1 Sanitizing and may include: • Formal disinfection protocol developed by a Certified Industrial Hygienist or Infection Control Specialist. • Area Containment under Negative Pressure • Spray Sanitizing • Thermo Fogging • Electrostatic Sanitizing • Ultraviolet Sanitizing. Due to the global nature of this event, limitations of available supplies, materials, equipment, and personnel may be unavoidable.
